Positive Numbers

Adapted by Neilor Tonin, URI Brazil

Timelimit: 1

Write a program that reads 6 numbers. These numbers will only be positive or negative (disregard null values). Print the total number of positive numbers.

Input

Six numbers, positive and/or negative.

Output

Print a message with the total number of positive numbers.

Input Sample	Output Sample
7 -5 6 -3.4 4.6 12	4 valores positivos
